Template – Test Smells Refactoring Experiment

Name: Maria Alice de Souza Macedo

Project: https://github.com/Nasalis/qs-tf

I'm currently working on refactoring the following test smell:

Duplicate Asserts

My main difficulties in removing these anomalies were:

Duplicate Asserts at EndianUtilsTest

I'm using the following refactoring methods to remove test smells:

Separation of methods

From (0 to 10), how harmful is this test smell to the system? It's because ?

2, because this smell did not interfere with the system's functioning
